“*Dr. Moschopedis was a mentor, an example, and inspiration to many of us younger and aspiring academics and researchers in chemistry. I fondly remember him in his Alberta Research Council Lab giving me generously of his time, wisdom, and guidance. Anna and Speros always had an "open house policy" for all of us, welcoming us and offering us a "home away from home" at all times. He was a simple, approachable and unassuming man, highly intelligent and bright. His humour was unsurpassed. His memory will be eternal.*

*Dr. Athanasios Tavouktsoglou and family*
